

## Help people with diabetes to overcome their challenges

What is diabetes?  
Why am I getting fat?  
What should I do next?  
Why is my sugar so high?  
How do my meds work?  
Am I taking the right dose of insulin?  
Can I even eat this?

Regular, structured education empowers people with diabetes to self-manage their condition.

## Do you have a special interest in diabetes? Guidepost offers Diabetes Educators many benefits
